

ALUMINIUM TORQUE WRENCHES

Chrome-plating finish strengthens the material hardness and anti-collision.

Designed for industrial work, for example aerospace-, windpower- and automation industries.

Square driver: Chrome-molybdenum alloy steel brings better strength, toughness, stability and life cycle.

The weight of aluminium is extremely lighter than steel. Good for long time operation and heavy industry.

Integrated 3-lever chain mechanism brings length independence, greater sensitivity, high accuracy and a long life cycle.

Loud click sound and strong impulse when reaching required torque.

Dual scales of torque measurement (Nm og ft-lb).

Engraved serial no. for tracing.

Nice-to-hold handgrip enables safe work and less operator fatigue.

Fast and easy torque adjustment with unique "Quick pull out" crank.

7200 ALUMINIUM TORQUE WRENCHES
