

SCREWDRIVERS

POLAR® screwdrivers offer a great combination of power and comfort.

- Unique handle shape providing excellent grip and superior force.
- Bi-material gives you firm grip – even in the greasiest shop environments.
- The tip types are marked on each handle to quickly find the right type for the job.
- The blade is made of chrome-molybdenum steel for the highest torque performance.
- The wide range includes also screwdrivers with go-through blades and insulated screwdrivers.
