

**POLAR®**  
AIR TOOLS

# AIR TOOLS

*POLAR® Air tools are designed to work comfortably and feature heavy duty components to resist the everyday use.*

*POLAR® offers a very wide range of air tools, which combines power and durability.*

- Compact design – allows easy access to tight spaces
- Twin hammer impact mechanisms – performing maximum power
- Reduced vibration – shock absorption reduce the stress from vibration
- Balanced design – for better user control
- Low noise – for a comfortable working environment
- Comfort grip – ergonomic grip, to take the strain out of repetitive use.
